EDUCATION

Kennesaw State University

B.S. in Computer Science, Minor in Software Engineering

Aug 2017 – May 2023

Kennesaw, GA

EXPERIENCE

Frontend Developer Intern

Ding Carpool

Dec 2024 – Mar 2025

Remote

- Built scalable, responsive UI components in React Native, focusing on performance and user accessibility.
- Refactored navigation and screen rendering logic, reducing load times by 40%.

Braid Utility Floater

Ethicon (Johnson & Johnson)

Oct 2023 – Jul 2024

Cornelia, GA

- Collaborated with cross-functional teams in a regulated production environment ensuring quality compliance.
- Maintained production flow by multitasking and troubleshooting equipment lines and quality assurance stations.

PROJECTS

PC Palace | React.js, Next.js, TypeScript, Tailwind, PlanetScale, NextAuth

- Designed and implemented a full-stack e-commerce platform with secure authentication and dynamic routing.
- Enhanced API performance and data loading speed by 35%.

ShoppingSquad | Kotlin, Firebase Realtime Database

- Engineered a mobile grocery list app with real-time collaboration and friend management functionality.
- Leveraged Firebase for seamless asynchronous syncing and persistent storage.

txt.io | React.js, Next.js, MongoDB, TypeScript, Pusher, Cloudinary

- Built a full-featured real-time chat app supporting group messaging, media upload, and session-based auth.
- Improved mobile responsiveness and user engagement, reducing UI-related issues by 25%.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, HTML5, CSS3

Frameworks/Libraries: React.js, React Native, Express, Next.js, Tailwind CSS

Tools/Platforms: Node.js, Git, Firebase, MongoDB, MySQL, PlanetScale, Cloudinary, Pusher, NextAuth

Practices: Agile (SCRUM), Responsive Design, REST API Integration, Component-Based Architecture

Hardware & Systems: Windows, Mac OS, Computer Hardware, Software Installation & Troubleshooting, Component Installation and Upgrades
